Professional Summary

Frontend Developer with hands-on experience building responsive web applications using React, Next.js, TypeScript, JavaScript, Tailwind CSS, Supabase, and Framer Motion. Developed modern web applications with authentication, database integration, and reusable component architecture. Passionate about creating clean, maintainable user interfaces, optimizing user experience, and continuously improving technical skills through real-world projects.

Projects

Portfolio Website | Independent Project | June 2026

[Next.js, TypeScript, Tailwind CSS, Framer Motion, zod] | [Live Demo](#) | [Source Code](#)

- **Description:** A modern personal portfolio showcasing projects, technical skills, and professional information with responsive design and smooth animations
- **Role:**
Built a fully responsive portfolio using Next.js, TypeScript, and Tailwind CSS.
Structured the application using a layered architecture for maintainability and scalability.
Created reusable UI components following a clean project structure.
Added smooth animations and interactive user experience using Framer Motion.
Optimized the application for performance and responsiveness across devices.
Deployed the project on Vercel.

Etec (E-Commerce Web Application) | Independent Project | April 2026

[Next.js, TypeScript, Tailwind CSS, shadcn, zod, Supabase] | [Live Demo](#) | [Source Code](#)

- **Description:** A modern e-commerce web application featuring product browsing, authentication, and database integration powered by Supabase.
- **Role:**
Developed a responsive e-commerce application using Next.js, TypeScript, Tailwind CSS, and Supabase.
Organized the project using a feature-driven architecture to improve scalability and code organization.
Integrated Supabase Authentication for user account management.
Connected the application to Supabase Database for product and user data.
Implemented Supabase Storage for uploading and managing product images.
Built reusable React components with a focus on clean and maintainable code.
Deployed the application on Vercel.

Professional Experience

Frontend Developer | Personal Projects | October 2024 – Present

- Built responsive web applications using React, Next.js, TypeScript, Tailwind CSS, and Supabase.
- Integrated frontend applications with Supabase Authentication and Database services.
- Developed reusable and maintainable React components.
- Managed source code using Git and GitHub.
- Deployed applications using Vercel.

Skills

Soft Skills: Communication | Problem Solving | Self-Learning | Adaptability | Fast Learning

Technical Skills:

- **Frontend & UI:** React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion, shadcn/ui, Vite.
- **Backend & Data:** Supabase (Authentication, Database, Storage), REST APIs..
- **Tools & Dev:** Git, GitHub, Vercel, VS Code.
